Oct 22, 2011 Data.OracleClient requires Oracle client software version 8.1.7 or greater Result Answer. Asked 10 years, 3 months ago. This will work fine, but you will not be able to download the redistributable from oracle.com . Usage As discussed below, OLE DB drivers are supported for ODBC connections. See: Microsoft SQL Server ODBC Drivers Access drivers are not supported. Data.DbFetch supports native SQL for clients that support native SQL without creating a Data.DbFetch object. Data.DbFetch objects that reference a Data Source managed by the Data Source Name (DSN) extension to the ODBC Driver Manager (ODBM) are supported. The ODBC Driver Manager (ODBM) is not supported for Access. Instead use a DSN for Access. Data.DbInsert supports native SQL for clients that support native SQL without creating a Data.DbInsert object. Data.DbInsert objects that reference a Data Source managed by the Data Source Name (DSN) extension to the ODBC Driver Manager (ODBM) are supported. The ODBC Driver Manager (ODBM) is not supported for Access. Instead use a DSN for Access. Data.DbQuery supports native SQL for clients that support native SQL without creating a Data.DbQuery object. Data.DbQuery objects that reference a Data Source managed by the Data Source Name (DSN) extension to the ODBC Driver Manager (ODBM) are supported. The ODBC Driver Manager (ODBM) is not supported for Access. Instead use a DSN for Access. Data.DbRecordset supports native SQL for clients that support native SQL without creating a Data.DbRecordset object. Data.DbRecordset objects that reference a Data Source managed by the Data Source Name (DSN) extension to the ODBC Driver Manager (ODBM) are supported. The ODBC Driver Manager (ODBM) is not supported for Access. Instead use a DSN for Access. Data.DbSelect supports native SQL for clients that support native SQL without creating a Data.DbSelect object. Data.DbSelect objects that reference a Data Source managed by the Data Source Name (DSN) extension to the ODBC Driver Manager (ODBM) are supported. The ODBC Driver Manager (ODBM) is not supported for Access. Instead use a DSN for Access. Data.
